KITCHENS

SECTOR PORTFOLIO:

Emergency Services Kitchens

Police, Fire & Ambulance

This portfolio focuses on the use of Kitchens within Emergency Services.

Having been providing our strong and durable kitchens now for 25 years, we are particularly proud of the work we have done alongside our excellent emergency services. Our relationships with some of the fire brigades, police forces and ambulance services throughout the UK goes back to the last century! During that time, we have gained and nurtured the very specialist knowledge required to provide these organisations with the high-quality tailored kitchens that helps them operate 24 hours a day, 7 days a week, 365 days a year. Shift after shift use our kitchens as their home from home.

Not that our work is constrained to just the kitchens. In fire stations we have become experts in providing the equipment for BA Rooms including cylinder storage and equipment racking whilst in police stations we also provide facilities for night kitchens and custody suites.

These environments, with their constant use, place a heavy demand on the cabinets and worktops specified to take the strain and, as we find ourselves halfway through our third decade, we are proud to present a portfolio of successful installations across the last 25 years to show that Steelplan Kitchens' strong and durable metal kitchens are more than up to the task!
